ILLINOIS STATE
UNIVERSITY

Illinois' first public university

FOUNDERS

2011 DAY

CONVOCATION | 2 P.M., FEBRUARY 17, 2011

ILLINOIS' FIRST PUBLIC UNIVERSITY

154 YEARS OF EXCELLENCE—On February 18, 1857, Governor William Bissell of Illinois signed a bill creating a normal school and establishing the Board of Education of the state of Illinois as its governing body. The bill stipulated that the permanent location would be the place that offered the most favorable inducements. Jesse W. Fell took up the campaign for Bloomington and obtained financial backing totaling \$141,000. Abraham Lincoln, acting as attorney for the board, drew up the bond guaranteeing the Bloomington citizens would fulfill their financial pledges.

Illinois State Normal University was consequently founded as the first public institution of higher education in the state. Established as a teacher education institution, Illinois State has developed into a multipurpose university with degree programs at the bachelor's, master's, and doctoral levels.

The University is one of 12 public universities in Illinois. Its 34 academic departments offer more than 188 fields of study in the Colleges of Applied Science and Technology, Arts and Sciences, Business, Education, Fine Arts, and the Mennonite College of Nursing. The Graduate School coordinates 39 master's, two specialist, and nine doctoral programs. The University's academic programs are supported by the services and collections of Milner Library, which contains more than three million holdings and special collections.

Illinois State is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools. The teacher-preparation programs are accredited by the National Council for Accreditation of Teacher Education and are certified by the Illinois State Board of Education. Mennonite College of Nursing is accredited by the National League for Nursing, as well as the North Central Association. In addition, numerous programs hold discipline-based accreditation. The University is also associated with 27 professional agencies, such as the American Psychological Society, the National Association of Schools of Art and Design, and the National Athletic Training Association.

The University enrolls students from throughout Illinois, 49 states, and 67 countries. Students are mentored by faculty members, including numerous teacher-scholars recognized at national and international levels, dedicated to superior teaching.

Conveniently located in Central Illinois, the University is situated at the intersection of three major interstate highways, as well as along the Chicago–St. Louis railroad corridor. Due to its easy access in a region of strong economic growth and its multidimensional profile, Illinois State is able to respond to the varied needs and interests of its constituents and contribute to the development of its students as responsible citizens.

CONVOCATION PROGRAM

BROWN BALLROOM, BONE STUDENT CENTER

PROCESSIONAL

Led by Distinguished Professors
Faculty led by Daniel Holland, chairperson, Academic Senate
"Procession of the Academics," David Maslanka
Performed by the Illinois State University Wind Symphony
Stephen K. Steele, conductor

NATIONAL ANTHEM

Performed by Colleen Longo
School of Music

WELCOME AND OPENING REMARKS

Al Bowman, president

PRESENTATION OF HONORARY DEGREES

Al Bowman

PRESENTATION OF DISTINGUISHED PROFESSOR

PRESENTATION OF UNIVERSITY PROFESSOR

PRESENTATION OF OUTSTANDING UNIVERSITY TEACHERS AND RESEARCHERS

PRESENTATION OF UNIVERSITY TEACHING INITIATIVE AND RESEARCH INITIATIVE AWARDS

PRESENTATION OF THE OUTSTANDING UNIVERSITY SERVICE AWARD

PRESENTATION OF THE SERVICE INITIATIVE AWARDS

PRESENTATION OF THE STAN AND SANDY RIVES EXCELLENCE IN UNDERGRADUATE EDUCATION AWARD

Sheri Noren Everts, vice president and provost

PRESENTATION OF THE HERB SANDERS AWARD FOR OUTSTANDING ACADEMIC ADVISEMENT

PRESENTATION OF WILLIAMS OUTSTANDING TECHNOLOGY SERVICE AWARD

PRESENTATION OF THE NEAL R. GAMSKY AWARD

Erin Minné, vice president for University Advancement

PRESENTATION OF DAVID A. STRAND DIVERSITY ACHIEVEMENT AWARD

David A. Strand, president emeritus

PRESENTATION OF ALUMNI AWARDS

Outstanding Young Alumni Award

Alumni Achievement Award

E. Burton Mercier Service Award

Senator John W. Maitland Jr., Commitment to Education Award

Distinguished Alumni Award

Mary Ann Louderback, chairman of the Alumni Association

PRESENTATION OF THE OUTSTANDING UNIVERSITY

GRADUATE STUDENT TEACHING AWARDS

RECOGNITION OF THE COUNCIL FOR TEACHER EDUCATION SCHOLARSHIP RECIPIENTS

RECOGNITION OF BONE, PRESIDENTIAL, AND UNIVERSITY SCHOLARS; AND BOWMAN FELLOWS

Steve Adams, vice president for Student Affairs

RECOGNITION OF THE ENVIRONMENTAL STEWARDSHIP AWARD RECIPIENTS

RECOGNITION OF 2010 TEAM EXCELLENCE AWARD RECIPIENTS

PRESENTATION OF THE ADMINISTRATIVE/PROFESSIONAL AND CIVIL SERVICE COUNCIL DISTINGUISHED SERVICE AWARDS

RECOGNITION OF EMPLOYEES—YEARS OF SERVICE

Daniel Layzell, vice president for Finance and Planning

CLOSING REMARKS

Al Bowman

"THE UNIVERSITY HYMN"

Performed by the Illinois State University Symphonic Winds

Led by Colleen Longo

RECESSIONAL

"Procession of the Academics," David Maslanka

Performed by the Illinois State University Wind Symphony

RECEPTION

There will be a reception at approximately 3:30 p.m. in the Bone Student Center Brown Ballroom.

HONORARY DEGREE RECIPIENTS

Terry Kinney and Jeff Perry

Terry Kinney '76 and Jeff Perry '78, stage, film, and television actors, founded the Steppenwolf Theatre Company of Chicago in a church basement in Perry's hometown of Highland Park with their friend Gary Sinise, among others. The theatre company joined the critical Regional Theatre Movement in the United States, bringing new plays, experimentation, and quality professional theatre to areas outside New York and Los Angeles. Steppenwolf went on to garner multiple awards and launch the careers of many well-known actors, including its founders. In 1995 the three friends were named as the Executive Artistic Board of the company.

Kinney is best known for his role as Tim McManus on HBO's prison drama *Oz*, in which he appeared in more than 50 episodes and directed two. Kinney also directed the successful premiere of Neil LaBute's *Reasons to be Pretty*, which went on to a Broadway run as well.

Kinney attributes his success to his time at Illinois State. "Everything I ever achieved as an artist was due to the training and education I got right here at Illinois State."

He returned to Illinois State as a commencement speaker in 2003, and was the 2008 recipient of the Illinois State University Alumni Achievement Award.

Perry is known for his role as the diehard Grateful Dead fan and police inspector Harvey Leek on the Don Johnson police show *Nash Bridges*. He has also appeared in a wide range of TV series, including *My So-Called Life*, *The West Wing*, *The Practice*, *LOST*, *Cold Case*, *Raines*, and *Grey's Anatomy*. He starred in the Tracy Letts play *August: Osage County* on Broadway after creating the role in Chicago.

Perry was a product of his high school's acclaimed theater department and was recruited to study theater at Illinois State by a faculty member he described as "wildly exciting, intimidating, irascible, and maddening."

He traces the work at Steppenwolf back to his Illinois State roots. "I think ours is a style of pushing characters to extremes while maintaining a believable center, and I always felt that we got that from the faculty at ISU."

He maintains a commitment to education through the School at Steppenwolf, which he was instrumental in founding.

DISTINGUISHED PROFESSOR

The Distinguished Professor appointment, which recognizes outstanding teachers and scholars, is the most prestigious honor that can be earned by a faculty member at Illinois State University.

Paul Garris

Paul Garris came to Illinois State University in 1996 after earning his doctorate in the Department of Physiology and Biophysics at Indiana University School of Medicine and completing a five-year postdoctoral research associate position at the University of North Carolina at Chapel Hill.

Garris' research on dopamine neurons, which serve an important role in mediating the brain's functions from control of movement and emotions to cognition, has earned national and international recognition. Specifically, Garris' research has questioned the mainstream view that dopamine is a "pleasure chemical" in the brain, and posited that it is a learning signal associating rewards to predictive cues. That view of dopamine neurons received international recognition through the publication of the research in *Nature*, the top journal across science disciplines. Garris has also established research programs on Parkinson's disease, the mechanism by which the drugs are prone to abuse, and the development of instrumentation to support fast-scan cyclic voltammetry to monitor brain neurochemistry.

Garris has earned many accolades and honors, including being named a Kuffler and Steinbach Fellow at the Marine Biological Laboratory in Woods Hole, Massachusetts. He has given invited presentations for national meetings and institutions, at Stanford University, the international conference on In Vivo Methods—Monitoring Molecules in Neuroscience in Sweden, and the international conference on In Vivo Methods in Belgium.

Garris has published 63 refereed-journal articles and book chapters in top journals, including the *Journal of Neuroscience*, *Neuron*, and the *Proceedings of the National Academy of Sciences USA*, along with 80 conference abstracts.

As principal investigator, Garris' research program has been supported with more than \$3 million in external funding from such agencies as the National Institutes of Health (NIH), the National Science Foundation (NSF), and the American Heart Association. As co-investigator, his research collaborations have been supported by \$2.7 million in federal funding.

Garris has served as a grant reviewer panelist for the NSF, as well as a grant reviewer for the NIH, the Wellcome Trust, and the Health Research Board.

PAST DISTINGUISHED PROFESSORS

- 2010—Victor G. Devinatz, Management and Quantitative Methods;
and John B. Pryor, Psychology
- 2009—Susan Sprecher, Sociology and Anthropology
- 2008—Radheshyam Jayaswal, Biological Sciences; and Glenn Reeder, Psychology
- 2007—Curtis White, English
- 2006—Scott Sakaluk, Biological Sciences; and John Shields, English
- 2005—No appointments made
- 2004—David Borst, Biology; and Rainer Grobe, Physics
- 2003—Willard Bohn, Foreign Languages
- 2002—Steven Juliano, Biology
- 2001—Richard Stivers, Sociology
- 2000—James D. Butler, Art; and Timothy D. Lash, Chemistry
- 1999—Charles Orser Jr., Anthropology
- 1998—Diane R. Urey, Foreign Languages; and Ralph A. Weisheit, Criminal Justice Sciences
- 1997—Edward Hines, Educational Administration and Foundations;
and Mark Wyman, History
- 1996—Lucia Getsi, English; and Brian Wilkinson, Biological Sciences
- 1995—Laura Berk, Psychology; and Lanny Morreau, Specialized Educational Development
- 1994—Roger Anderson, Biological Sciences; and Richard Payne, Political Science
- 1993—Joel Myers, Art; and Douglas West, Chemistry
- 1992—Paul Baker, Educational Administration and Foundations;
and Carol Thornton, Mathematics
- 1991—Frances Anderson, Art; and John Freed, History
- 1990—Anthony Liberta, Biological Sciences; and Rodger Tarr, English
- 1989—John Dossey, Mathematics; and Thomas Fitch, Curriculum and Instruction
- 1988—Harold Gregor, Art
- 1987—Ann Nolte, Health Sciences; and Cheryl Stevenson, Chemistry
- 1986—Rati Ram, Economics; and Arlan Richardson, Chemistry and Biological Sciences
- 1985—Ray Lewis White, English
- 1984—Franz Loepp, Industrial Technology; and Edward Mockford, Biological Sciences
- 1983—Roque Cordero, Music; and
G. Alan Hickrod, Educational Administration and Foundations
- 1982—Herman Brockman, Biological Sciences; Edward Schapsmeier, History;
and Benjamin Hubbard, College of Education

UNIVERSITY PROFESSOR

The University Professor appointment is made to a faculty member or administrator who holds the rank of full professor and who has achieved national recognition for scholarly research, creative production, or leadership in creative or scholarly activities.

Q. Charles Su

Q. Charles Su joined the faculty in the Physics Department in 1994 after earning a Ph.D. at the University of Rochester in New York and serving as a research associate at the Max Planck Institute of Quantum Optics in Germany. He is a computational and theoretical physicist specializing in the area of laser-atom interactions.

The codirector of the Intense Laser Physics research group at Illinois State, Su has obtained external funding from the National Science Foundation (NSF), U.S. Department of Energy, and the Research Corporation. His NSF grants, obtained with Distinguished Professor Rainer Grobe, are the largest research grants at undergraduate institutions in the field, and rank in the top five of atomic and optical theory grants given to all institutions. He has acquired external funding of more than \$1 million at Illinois State and shared the 2006 Prize for Faculty Research in an Undergraduate Institution given by the American Physics Society.

Su has more than 120 refereed articles with many in the flagship physics journal, the *Physical Review*. His work has had more than 2,000 citations. Su has been invited to present at international conferences and research institutes in 16 countries. His research work has been featured in the national and local press, TV, and radio. The large number of students he supervised over the years have coauthored more than 50 refereed journal articles; have presented more than 200 talks at local, national, and international conferences. Some have received honors, including Goldwater scholarships and the American Physical Society's LeRoy Apker Award, which is the highest honor an undergraduate physics major can receive for research.

Su referees for eight major journals and three funding agencies. His Intense Laser Physics Theory Unit has gained international visibility and has attracted leading scientists from around the world to Illinois State University.

OUTSTANDING UNIVERSITY TEACHERS

Category I

The Outstanding University Teacher Award, Category I, honors exceptional Illinois State faculty members whose teaching accomplishments are unusually significant and meritorious among their colleagues at the University and beyond, and who are tenured or in a tenure-track position.

Gary Creasey

Gary Creasey joined the Psychology Department in 1989. He has taught a variety of undergraduate and graduate courses. Most of his undergraduate students are teacher education majors. He has supervised a number of thesis and dissertation projects, and is the chairperson of the Illinois State University Urban Teacher Preparation Steering Committee as well as assistant director of the TEACHER+PLUS grant funded by the United States Department of Education. His primary roles on the grant include mentoring faculty members as they redesign their courses with an urban education focus, developing classes that can be taken by teacher candidates interested in pursuing urban teaching careers, and conducting assessment/evaluation work on the progress of those students as they negotiate their undergraduate careers at Illinois State and eventual teaching positions. He has also published the textbook, *Research Methods in Lifespan Development*; has received a number of Scholarship of Teaching and Learning (SoTL) grants; and has published several papers in SoTL outlets.

He is also chairperson of the Institutional Review Board and has helped transform this unit into a major educational and service delivery organization. Creasey has won two awards from the Illinois State University Student Educational Association and was honored with the College of Arts and Sciences Outstanding College Teacher Award (Senior Division) in 2008.

Tim Fredstrom

Tim Fredstrom is an associate professor and assistant director of the School of Music. He joined the faculty in 2003 after teaching music in the public schools for 10 years. Fredstrom has taught courses in graduate and undergraduate music education, general education, and has conducted choral ensembles, including Illinois State Men's Glee. His teaching extends beyond the formal classroom through opportunities such as academic advisor to choral music education majors, Presidential Scholar mentor, residence hall mentor, and faculty advisor to several student organizations in the School of Music.

From 2006 to 2008 Fredstrom served as faculty in residence in the Center for Teaching and Learning (CTLT), where he conducted workshops on instructional effectiveness for colleagues from across campus. He continues to facilitate the Reinvent Your Course workshop each summer for CTLT. Fredstrom has presented numerous conference sessions and public school teacher in-service institutes on instructional effectiveness and clarity. He is a prior recipient of the University Teaching Initiative Award and the University Service Initiative Award.

OUTSTANDING UNIVERSITY TEACHERS

Category II

The Outstanding University Teacher Award, Category II, honors exceptional Illinois State teachers whose teaching accomplishments are unusually significant and meritorious among their colleagues at the University and beyond, but who are not tenured or in a tenure-track position.

Carol Lind

Carol Lind received her B.S. in art education in 1975 and returned to Illinois State in 2000 as a nontraditional student to earn her M.S. and Ph.D. in English studies, specializing in Medieval literature. She taught classes in composition while completing her graduate degrees. After completing her doctorate in 2007, Lind began teaching full time in the Department of English. Lind has taught a variety of classes, including British Literature, Introduction to English Studies, Medieval Literature, Growth and Structure of the English Language, and Introduction to Literary Genres (a course that she has dubbed “The Literature of Laughter” and uses to teach humor theory). Outside the classroom she is actively involved in The Old English Study Group, and serves as faculty advisor for the Sigma Sigma Sigma sorority and the Illinois State Quidditch team.

She uses humor to build community and to help students become comfortable enough in the classroom to be willing to “play” with the subject matter—whether it is acting out the Norman Conquest of England (complete with swords, crowns, and horned helmets) in the History of English class or doing an *American Idol* version of Shakespearean sonnets in British Literature.

While in graduate school Lind won the English Department’s Taimi Maria Ranta Award for Outstanding Teaching by a Ph.D. candidate in 2004, and was named one of the Panhellenic Association Outstanding Professors in 2009 and 2010.

OUTSTANDING UNIVERSITY RESEARCHER AWARDS

The Outstanding University Researcher Awards recognize faculty whose research is acknowledged at the national or international level for its quality and contribution to the profession or discipline.

Rajeev Goel

Rajeev Goel joined Illinois State University in 1989 after receiving his Ph.D. in economics from the University of Houston in 1987. Goel's research interests span applied microeconomics, including economics of technical change, industrial organization, Internet economics, entrepreneurship, and tobacco economics. His scholastic interests span topics of international trends in tobacco consumption and regulation, and determinants of cross-country corruption.

Goel's research dossier boasts two scholarly books, 86 articles, and several book chapters, the majority of which were published while at Illinois State. Goel's work is heavily cited and routinely appears in prestigious, high-quality, peer-reviewed outlets. This accomplishment testifies to the importance and impact of Goel's contributions. The volume of Goel's publication output has been recognized by a study conducted by the European Economic Association that ranked Goel among the top 400 economists in the world in terms of scholarly publications between 1990 and 2000. Goel's international recognition is also evident through the number of invited speeches at international conferences and workshops listed on his dossier.

Anu Gokhale

Anu Gokhale has established an exceptionally strong, focused record of funded research and scholarship that has made a substantial contribution to her discipline and Illinois State University. Her inherently collaborative work has focused on female and minority participation in technical areas within the broad context of Science, Technology, Engineering, and Mathematics (STEM) education. Participation by underrepresented groups in STEM-related careers has become a hallmark of her work, a passion that dovetails with the funding priorities of the National Science Foundation.

Her work has been widely disseminated in an array of engineering and educational research journals including, *International Journal of Science Education*, *Journal of College Science Teaching*, *Journal of Information Management*, *Journal for Women and Minorities in Science & Engineering*, *Journal of the Communications Network*, and *Journal of Environmental Management*.

She presents at national and international conferences, often as an invited or keynote speaker. Her telecommunications textbook is utilized by more than 20 universities and was translated into Chinese. She was also awarded a Fulbright Scholarship in 2002 to conduct research and teach at two prestigious universities in India. This year Gokhale will contribute an invited chapter on *Collaborative Learning and Critical Thinking* to the next volume of the *Encyclopedia of the Sciences of Learning*.

UNIVERSITY TEACHING INITIATIVE AWARDS

The University Teaching Initiative Awards are presented to faculty who, within their first five years at Illinois State, have exhibited considerable promise in teaching early in their academic careers.

Jennifer Friberg

Jennifer Friberg is an assistant professor in the Department of Communication Sciences and Disorders, where she has been on the tenure track since 2006. Since arriving at Illinois State she has taught several courses dealing with typical and atypical development of language and literacy skills in young children. Friberg has worked with students to facilitate the completion of two large-scale service-learning projects, both of which meshed with course content while providing a venue to apply learning to real community needs. She routinely serves as a supervisor for her graduate students' clinical efforts, helping to tie course content to clinical practice. Additionally she has served as a mentor for more than 50 graduate and undergraduate students in her department; assisting in the completion of numerous honors, independent study, thesis, and dissertation projects, several of which have led directly to presentations or publications.

As an instructor committed to investigating the effectiveness of various teaching methods, Friberg has published work related to her research on teaching and learning and has made presentations at regional, state, and national conferences. Friberg was selected as the Department of Communication Science and Disorders' Professor of the Year in 2007 and 2010.

Chris Grieshaber

Chris Grieshaber is an assistant professor in the Department of Health Sciences. He joined Illinois State in 2006 and has taught a wide range of courses in the safety program, including risk management, safety technology, and ergonomics. He also regularly teaches the general education course in the safety program. Since 2008 Grieshaber has advised the research project for the student section of the American Society of Safety Engineers. Results from these studies have been presented on campus at the undergraduate research symposium and at a national meeting of industrial hygienists. The students are working on a funded study of pedestrian behavior in lighted crosswalks on campus. Grieshaber's approach to teaching focuses on imagination, enthusiasm, critical thinking, and high expectations of his students. He was the recipient of the Department of Health Sciences' Excellence in Teaching award in 2008 and 2009.

Hedda Meadan-Kaplansky

Hedda Meadan-Kaplansky is an assistant professor in the Department of Special Education. She received her Ph.D. in special education from the University of Illinois at Urbana-Champaign and joined Illinois State in 2006. She has taught a wide range of courses, including Early Intervention for Infants and Young Children with Disabilities, Developing and Implementing Alternative Curriculum, Educational Assessment of Pre-

school Children with Disabilities, and Personnel Preparation in Special Education. She contributed to course development and revisions in her department and was awarded the Faculty Development Course Reassignment Grant. She has also worked with and mentored numerous undergraduate and graduate students on several research projects. In her teaching, she emphasizes the importance of learning communities for bringing all students together for shared learning, discovery, and generation of knowledge.

Maria A. Moore

Maria A. Moore is an assistant professor of communication law and media ethics in the School of Communication. With a 25-year career as a senior media manager and journalist, she brings workplace relevancy and professional experience to her teaching. She earned her Ed.D. from National Louis University–Chicago and joined Illinois State in 2008.

She is an Emmy award-winning producer of documentaries and is also the recipient of awards from the New York Film Festival and the Chicago Film Festival. She mentors television and radio students aspiring to work in media and will initiate a capstone experience this spring for students graduating in a new sales and marketing sequence. Her primary research investigates the collaboration between whistleblowers and investigative journalists, and she has presented at international conferences on the topic. She is also experimenting with multimodal approaches to scholarship of teaching and learning research, and has had a WebText article combining video, animation, and graphic design accepted for publication.

UNIVERSITY RESEARCH INITIATIVE AWARDS

The University Research Initiative Award is presented to faculty who, within their first five years at Illinois State, have initiated a promising research agenda early in their academic careers.

Winfred A. Avogo

Winfred A. Avogo joined the Illinois State faculty in 2008, having earned his Ph.D. in sociology at Arizona State University that same year. His research is international and broadly encompasses academically and socially critical fields of demography, reproductive behavior, HIV/AIDS risk, and forced migration in sub-Saharan Africa.

His work centers on the determination and study of the causative relationships between social behavior and demographic parameters. Avogo's recent focus has centered on examining connections between high birth rates in the region and the impact on environmental sustainability. His work on HIV/AIDS has explored the impact of social factors on the epidemiological aspects of the disease. The final aspect of his work has focused on improving our understanding of the impact of warfare on child health. Avogo conducts his research in collaboration with scholars from the United States and Africa.

Sunil Chebolu

Sunil Chebolu joined Illinois State University in 2008 after completing his post-doctoral work at the University of Western Ontario. He received his Ph.D. in mathematics from the University of Washington in 2005. His research interests focus on cohomology, an area of complex mathematics that focuses on the understanding of group classification, K-theory, and Galois and Tate cohomology. His work has attracted significant attention among leaders in mathematics across North America, Europe, and India. Chebolu's efforts routinely draw on the expertise of several highly-regarded mathematicians. He boasts an impressive record of 15 research papers, 11 of which have been published since 2008. He has seven publications in print and four works in progress.

John Kostelnick

John Kostelnick joined Illinois State in 2007. He completed his Ph.D. in 2006 in geography at the University of Kansas. His broad scholastic interests lie in geographic information science at the intersection of geovisualization, geographic information systems, and cartography.

Kostelnick has successfully collaborated on several projects, including his participation in an important endeavor that provided geographic and cartographic support for humanitarian demining (landmine removal) personnel. As part of this international effort, Kostelnick developed a new set of cartographic symbols that are now promoted as a global standard in humanitarian demining activities. Maps and visualizations developed from the project are now utilized by NASA for public display, in addition to being in an issue of *National Geographic*. NASA also awarded Kostelnick and his collaborators \$400,000 for their work on Integrating Principles of Project Management into Haskell's Environmental Science Curriculum.

Jamie Perry

Jamie Perry joined Illinois State University in 2007 after completing her Ph.D. in speech and hearing sciences at the University of Illinois at Urbana-Champaign that same year. Perry's work addresses the differences in the structures in the region of the cleft palate due to gender and race, and underscores the importance of considering such distinctions during surgeries for producing normal sounding speech.

Perry is leading an interdisciplinary collaborative team that seeks to gain a better understanding of the mechanisms that are important in speech, with a goal of building a protocol and computer surgical simulator for cleft palate surgery. The effort will minimize the number of surgeries many children undergo for cleft palate.

Perry's specific research program has spanned four principal areas, including MRI and computer technology, MRI for diagnosis and treatment, MRI and computer technology for defining normative measures, and surgical interventions.

The importance and potential impact of Perry's research has also been validated by several grants, totaling more than \$450,000 received while at Illinois State. In 2009 Perry was awarded a RO3 grant from the National Institute of Deafness and Other Communication Disorders in the amount of \$430,000.

Steve Mertens

Steve Mertens received his doctorate degree in anthropology from University of Illinois at Urbana-Champaign; master's degree in archeology from University of London-Institute of Archeology; and his bachelor's degree in sociology and anthropology from West Virginia University.

His research focus is in the area of middle school education. Prior to coming to Illinois State University, he served as coprincipal investigator on various grants pertaining to middle level education. Since beginning his tenure in the Department of Curriculum and Instruction, he has been able to take many areas of his expertise from his studies and presentations and apply them to other departmental and external research projects. He is a member of the American Educational Research Association, The American Statistical Association, the Association of Illinois Middle Level Schools, the National Middle School Association, and the Society for Research on Adolescence.

Anne Cox

Anne Cox came to Illinois State in August 2006. She received her master's from the University of Virginia and her doctorate from Purdue University. Cox's research has focused on understanding social and motivational processes in youth physical activity settings, with an emphasis on the role of social perceptions and developmental issues. She has conducted a series of studies on the roles of social relationships with teachers and peers on students' motivation in physical education, and the link between motivation in this context and leisure-time physical activity behavior. She has also explored the role of body-related concerns, such as social physique anxiety in physical education in students' motivations and behaviors. Results of these studies have supported a growing body of research on the importance of supportive relationships and self-determined motivation in the physical education setting for optimizing behaviors both within and outside of this context.

OUTSTANDING UNIVERSITY SERVICE AWARD

The Outstanding University Service Award is given to faculty members whose service to Illinois State University is unusually significant and meritorious. Service is a central component of Illinois State's mission and governance.

Lane Crothers

POLITICS AND GOVERNMENT

SERVICE INITIATIVE AWARDS

The Service Initiative Award is given to faculty members who, early in their academic careers, have shown considerable promise in service to the University. Up to seven tenured or tenure-track faculty members per year with five or fewer years of service to Illinois State University receive the award.

Monica Noraian

HISTORY

Noha Shawki

POLITICS AND GOVERNMENT

STAN AND SANDY RIVES EXCELLENCE IN UNDERGRADUATE EDUCATION AWARD

The Stan and Sandy Rives Excellence in Undergraduate Education Award recognizes outstanding teaching or a significant contribution to the undergraduate experience, with special attention given to the first-year experience.

Carlye Kallianov

Carlye Kallianov, associate director of University College, has served several roles that have directly benefitted undergraduates. In these roles, she has influenced and positively changed advisement, orientation, and academic support of undergraduates. Kallianov started her professional career at Illinois State as an academic advisor in 1985 and quickly advanced to leadership positions. During her time as director of the Academic Advisement Center, Kallianov was instrumental in the creation of University College, which directly benefits undergraduates, particularly first-year students.

Kallianov led the reformulation of the First Year LinC Seminar and turned it into a course that positively impacts student satisfaction and retention. She has reformulated the delivery of Developmental Math, resulting in a course that serves more students with improved pass rates. Kallianov has also coordinated the transition of the new university studies major to University College.

HERB SANDERS AWARD FOR OUTSTANDING ACADEMIC ADVISEMENT

The Herb Sanders Award for Outstanding Academic Advisement recognizes advisors who demonstrate a caring attitude for students, who are assertive in their contacts with students, and who support campus-wide academic advisement.

Susan Woollen

Susan Woollen is enrolled in the higher education doctoral program at Illinois State. Her dissertation research centers on university presidential effectiveness. She has been the assistant to the chair in the Department of Criminal Justice Sciences since 2002 and served as an associate director of Admissions for 10 years.

In addition to advising more than 500 majors and 80 minors, she serves as a member of the department's curriculum, assessment, development, and scholarship/awards committees. Woollen has also served on more than 20 institutional committees, including Professional Development for Academic Advisors, the American Democracy Project, and the Council for the First-Year Experience. She has represented constituent groups through memberships on the Administrative and Professional Council and the Department and School Advisors Council. Her research on student engagement, learning, and satisfaction is aimed at enhancing student experiences in higher education, and she is a co-investigator on a project that examines the various learning styles of distance education learners in order to improve the delivery of online course modules.

WILLIAMS OUTSTANDING TECHNOLOGY SERVICE AWARD

The Williams Outstanding Technology Service Award recognizes an academic professional or civil service staff member who has made an outstanding contribution to the University in the area of technology and service.

Kate Plantholt

Kate Plantholt has been the coordinator of computer support for the College of Applied Science and Technology since 1990. She earned her bachelor's degree in natural resources at the University of Michigan, Ann Arbor, and her master's degree in applied computer science at Illinois State. Plantholt served as a research associate at Illinois State on a grant from the U.S. Army Corps of Engineers for three years.

Plantholt has been praised for her dedication in exploring instructional technology trends and her tireless advocacy for innovation. Her central role in teaching faculty, staff,

and administrators via workshops and individualized tutoring has been cited; as well as her pioneer position in advocating for, learning about, and teaching early versions of learning management systems. Her efforts to increase online offerings with the Technology Enhanced Active Learning program has been pivotal to the University purchasing a license and using the software across campus.

NEAL R. GAMSKY AWARD

The Neal R. Gamsky Award honors a staff member in the Division of Student Affairs who has made outstanding contributions to the quality of life for students at Illinois State University.

Steve Adams

Vice President for Student Affairs Steve Adams oversees the 12 units that comprise the division of Student Affairs. He assumed his present position in 2006 and will retire on June 1, 2011. During Adams' tenure, the Student Affairs Division led the construction of the Student Fitness Center and McCormick Hall, renovated residence halls and dining centers, enhanced the Bone Student Center, and paved the way for the University's first-ever public and private student housing initiative. The division also implemented an emergency texting system and added a security force to augment campus police patrols.

Adams served as assistant vice president for Enrollment Management and Academic Services, director of Admissions, and interim director of Financial Aid, among other leadership positions. During his 11 years as director of Admissions, Adams helped raise the new student academic profile to record levels. He has served as state representative for Illinois to the American College Testing (ACT) National Office, ACT Education Advisory Board member, president of the ACT State Council, and president of the Illinois Organization of State Universities for Admission and Records Officers.

Adams received his bachelor's degree in business administration from Illinois Wesleyan University and did graduate work in counselor education at Illinois State. He was a Senior Fellow in the Educational Policy Fellowship Program in Washington, D.C.

Adams received the Lifetime Achievement Award from the Illinois Association for College Admission Counseling and was inducted into the Illinois Basketball Hall of Fame and the Illinois State University Percy Family Athletics Hall of Fame.

DAVID A. STRAND

DIVERSITY ACHIEVEMENT AWARD

The David A. Strand Diversity Achievement Award honors faculty and/or staff members who have made extraordinary contributions to curricula or programs that help Illinois State University respond to its commitment to diversity.

Beverly Nance

A 25-year employee at Illinois State, Beverly Nance, coordinator of Targeted Retention Services for the Julia N. Visor Academic Center at Illinois State University, has held positions as director of the High Potential Students Program and coordinator of the Minority Student Academic Center. She started at Illinois State in 1986 as an academic coordinator for the Minority Professional Opportunities Program and has also held positions in the Summer Enrichment Program for Academically Talented Minorities and the University College Academic Enrichment Center.

Nance has been praised for devoting her entire career to assisting students, especially students from underrepresented backgrounds, and ensuring that the students had a welcome place to call home at the University. Her direct one-on-one impact with students has been described as the hallmark of Nance's career at Illinois State. She has supervised many graduate assistants and young minority professionals, providing mentoring, support, and guidance.

ALUMNI AWARDS

OUTSTANDING YOUNG ALUMNI AWARD

Dori Byard

Dori Byard '96 majored in agricultural business and economics. She was an active member of Phi Eta Sigma Freshman Honor Society, Alpha Zeta agriculture honors society, and Alpha Lambda Delta. She gained experience with trading, sales, and management oversight at several companies, including Grain Merchandiser, Bulk Oil Division, Archer Daniels Midland, and Kraft Foods.

Her efficiency in strategic sourcing of company products led to promotions, as Byard saved companies millions of dollars and consistently met sales goals. Her experiences prepared her for her role as the global sourcing manager for the William Wrigley Jr. Company in Chicago. Byard manages the supply chain for Wrigley's products, driving cost savings while maintaining brand quality. She also seeks out the flavors, colors, coolants, and menthol for the popular chewing gum and candies manufactured in 14 countries.

Byard has an assertive role in corporate America, yet remains connected to Illinois State. She speaks to students and has recruited alums. Making her family proud ranks as her greatest achievement. She is a diligent and committed woman loyal to her family, her profession, and herself.

ALUMNI ACHIEVEMENT AWARD

Rose M. Stadel

Rose M. Stadel '01 is a Licensed Practical Nurse and Licensed Nursing Home Administrator. She majored in health education and devoted more than 40 years to health care. Stadel partnered with Mennonite College of Nursing (MCN) to develop the Joe Warner Teaching Nursing Home Project for Alzheimer's residents at Heritage Manor-Normal. Named in honor of her late husband, the project is an MCN and Heritage Enterprises collaboration. She also developed the Children of Aging Parents support group. Stadel oversees resident care at Heritage Manor nursing homes of Bloomington, Normal, El Paso, and Gibson City; Adelaide Retirement Apartments; and Evergreen senior living communities. A Certified Health Education Specialist, Stadel has taught First Aid, CPR, and nonviolent crisis intervention classes. She serves on the advisory boards of MCN, Heartland Community College, and the Maitland/Warner Long Term Care Scholarship Board.

Stadel received the Illinois Society for Public Health Educators Donald B. Stone Outstanding Service Award, the YWCA Women of Distinction Award, and was named the Cornbelt Health Educators' Association Health Educator of the Year. Illinois State's Health Sciences Department presented her with the Outstanding Achievement in Scholarship and Distinguished Alumni Award.

E. BURTON MERCIER SERVICE AWARD

Alan Chapman

Normal Community High School (NCHS) alum Alan Chapman graduated from the University of Illinois and served honorably in the U.S. Army before earning educational administration graduate degrees at Illinois State. He served 31 years in Unit 5 as a teacher, coach, dean of students, assistant principal, and ultimately NCHS principal. After a year as interim, he was appointed Unit 5 superintendent in 2004.

He is past president of the Illinois State Deans Association and served on the Illinois High School Association Board of Directors. He remains a member of the Illinois State Deans Association, Illinois Principals Association, National Association of Secondary School Principals, and Illinois and American Associations of School Administrators.

Chapman and his wife, Kathie (Campbell) '69, M.S. '97, give generously to Illinois State. He served on the Department of Educational Administration and Foundations (EAF) Alumni Advisory Council and the college's Capital Campaign Fundraising Advisory Committee. Chapman was awarded the ISU Foundation Fellowship by EAF, and inducted into the College of Education Hall of Fame. He is a member of ISU Community Partners and The Weisbecker Scholarship Fund.

SENATOR JOHN W. MAITLAND JR., COMMITMENT TO EDUCATION AWARD

Walter Warfield

Walter Warfield, Ph.D. '78, completed two degrees before earning a doctorate at Illinois State. He dedicated 42 years to working with students as a teacher, coach, and principal at the middle school and high school level. He was a research assistant for Illinois State's Center for the Study of Educational Finance before becoming superintendent of schools in Decatur, Mattoon, and Fairfield. Warfield was the Illinois Association of School Administrators' executive director before becoming a scholar in residence at the University of Illinois at Springfield.

Warfield served on various Illinois State Board of Education committees. At Illinois State he was president of the Administrator's Club, on the Educational Foundation and Administration Graduate Advisory Committee, on the Alumni Board, and a charter member of the College of Education Hall of Fame. Warfield served as national president of the Horace Mann League and remains on the board, and as national president of the Association of State Executives. He is executive director emeritus of the Illinois Association of School Administrators. He and his wife, Catherine, give generously to Illinois State and remain strong advocates. Two of their three children are Illinois State graduates.

DISTINGUISHED ALUMNI AWARD

Laurie Metcalf

At Illinois State Laurie Metcalf met fellow students John Malkovich '76, Jeff Perry '78, and Terry Kinney '76. Together with Gary Sinise they founded Steppenwolf Theater in 1976, initially staging productions in a Highland Park church basement. Today Steppenwolf is one of Chicago's most recognized theaters, consistently garnering national acclaim.

Metcalf has starred in more than 30 productions at Steppenwolf, including *Frankie and Johnny in the Clair de Lune*, *My Thing of Love*, *The Glass Menagerie*, *Little Egypt*, and *Purple Heart*. Her role in *Balm in Gilead*—in which she delivered a 30-minute monologue—earned her the 1984 Obie award for best actress and the 1985 Theatre World award. She is most famous for playing Jackie Harris on the ABC sitcom *Roseanne*. She captured an Emmy for best supporting actress in 1992, 1993, and 1994 for that role. Metcalf's television success continued during the three years she appeared on the ABC sitcom *Norm*.

Fans have also seen her on *Saturday Night Live*, *Grey's Anatomy*, *Frasier*, and *3rd Rock from the Sun*. Metcalf's film roles include *Blink*, *Chicago Cab*, *Desperately Seeking Susan*, *JFK*, *Runaway Bride*, *Secret Life of Houses*, *Scream II*, *The Long Island Incident*, *Toy Story*, and *Uncle Buck*. She has appeared on Broadway in *Brighton Beach Memoirs*, *My Thing of Love*, and *November*, for which she received a Tony nomination.

A recipient of Illinois State's Alumni Achievement Award in 1993, Metcalf resides in California with her husband, Matt Roth, and their three children.

OUTSTANDING UNIVERSITY GRADUATE STUDENT TEACHING AWARDS

The Outstanding University Graduate Student Teaching Award is to recognize outstanding contributions to teaching made by graduate students as part of their program and educational experience at Illinois State University.

Lourdes Liliana Fernandez Flores

Lourdes Liliana Fernandez Flores has been a teaching assistant for the Department of Biological Sciences since January 2009. She received her B.S. in cell and molecular biology from Missouri State University and is working to complete her master's degree at Illinois State University. As a teaching assistant for the laboratories of Microbiology and Society, and Animal Physiology, Flores has focused on establishing a strong instructor-student relationship, offering diverse active-learning experiences, and relating material to students' lives. Students' comments on course evaluations often characterize Flores as cheerful, approachable, helpful inside and outside of class, straightforward, and striving to make the best use of the students' time.

Erin Frost

Erin Frost is a graduate student working on a Ph.D. in English studies. She first came to Illinois State in fall 2007 and completed her M.A. in professional writing and rhetorics in spring 2009. During the time she was working on her M.A., Frost was also serving as an investigative reporter and news editor at the *Lincoln Courier* newspaper in Lincoln. During her tenure there, she received first-place awards for news reporting, editorial excellence, and general excellence, as well as honors in innovative project design and photography from the Illinois Associated Press Editors Association. Frost brings her journalism experience into the classes she teaches, which include Professional and Technical Writing, and Composition as Critical Inquiry. To work toward engagement in classroom, local, and global communities, Frost's students often use social media as platforms for writing. Frost encourages students to take their work outside the classroom by helping them prepare to present at conferences. Frost's contributions to the scholarly community also include presentations at local and international conferences. She has been published in the peer-reviewed journal *Computers and Composition* and the online multimodal journal *Xchanges: An Interdisciplinary Technical Communication and Writing Journal*. Last spring Frost received the Sigma Tau Delta Scholarship for Outstanding Service and Leadership in English Studies. She is set to graduate in 2013 and plans to continue working as a university-level instructor.

ENVIRONMENTAL STEWARDSHIP AWARD RECIPIENTS

The goal of this annual award is to recognize campus groups and departments that are helping to further the Green Team's mission. Research projects, ongoing environmental education programs, individual efforts, and innovative program implementation are just a few of the efforts that are acceptable for recognition.

Kelly Schneider and Cristina Munoz

For the first time since it was established, two students are the recipients of the Environmental Stewardship Award for 2010. Kelly Schneider and Cristina Munoz, members of the Student Environmental Action Coalition (SEAC) spent a year researching and planning for Illinois State University's first herb garden. The students had a vision of growing food on campus that could be used in campus dining centers. The idea for a student garden first came to the attention of SEAC members last year. Hearing about other universities' student-run gardens through both conferences and the news, the group decided that creating a student-run herb garden could be a respectable, unique addition to our campus.

In an environmental studies course taught by Johanna Hass, Schneider and Munoz developed a thorough proposal to present to staff members. Their mission: "to educate students, faculty, and staff on sustainable agriculture by providing student volunteer grown produce to the Illinois State Campus Dining Services. As well as being aesthetically pleasing, it will promote interdisciplinary cooperation between student environmental organizations and encourage healthier food choice practices."

After examining several locations on campus and working to address the needs and concerns of various campus departments, a location for the garden was identified—West Campus near Linkins Dining Center. Through support from Illinois State Grounds Services and WGLT's Dean of Green, Don Schmidt, the students received seeds, plants, and mulch to get started.

Schneider and Munoz recruited students to volunteer their time to plant, care for, and harvest the garden. Both spent many hours over the summer working on the garden and used campus events to recruit more volunteers.

The dedication that Schneider and Munoz have shown in launching this project embodies a passion for the environment and for education. It was important to them that people learn about the importance and benefits of local foods, and that the garden serve as an educational tool. Both students are seniors this year, but the garden will remain as their legacy to the University.

Matt Miglin '10	Jerry Wright '61
Lois (Rademacher)	Linda Yap '74
Mills '62, M.S. '69	

ACKNOWLEDGMENTS

Thank you to those who continue to enrich the tradition
of Founders Day by marching in regalia.

UNIVERSITY HYMN

GLORY HAST THOU, MIGHT AND POWER,
PROUD THE HALLS OF ISU;
DEEDS THAT LIVE IN SONG AND STORY,
LOYAL SONS AND DAUGHTERS TRUE.

SO SHALT THOU IN YEARS INCREASING,
SEND THY GRADS OF HONEST WORTH;
FORTH TO BEAR WITH ZEAL UNCEASING,
WISDOM'S TORCH THROUGHOUT THE EARTH.

**ILLINOIS STATE
UNIVERSITY**

Illinois' first public university
